

Hello Local WIC Agencies:

My name is Elyse April, publicist and author of children's books from HOHM Press in Arizona (www.hohmpress.com).

I work with Head Start, WIC, schools and hospitals sending out free books.

These are books for young children (0-5yrs). I send out 5 free samples in English or Spanish. There is no obligation to order, but my hope is that you will fall in love with these books.

Please go to our website and click on the top right banner saying "The Family Health Series". Scroll down and read all of the books by clicking on the covers.

The subjects include:

- ☐ Breastfeeding
- ☐ Nutrition
- ☐ Obesity Prevention
- ☐ Literacy
- ☐ Dental Care
- ☐ Music Education

In August, we will be releasing "The World Health Series" with books on the environment such as **WE LIKE TO LIVE GREEN, WE LIKE TO NURSE TOO!** and **WE LIKE CLEAN AIR**. If you would like me to send you the file of the first two of this series, I would be happy to do so.

All of our books are available in either Spanish or bilingual - English & Spanish together.

*If all of the agencies place an order together, we will drop ship to different locations and everyone gets 65% off!

I look forward to hearing from you. Call 1.800.381.2700 and ask for me.

Best for 2009,
Elyse
